

Web Services: Hosting and Web Direct

Admin Resource and services is pleased to provide Web hosting, Web Design, and Web Direct services for our valued clients!

For the past six years, we have offered web hosting for our client list. We offer affordable convenience for managing your website layout and content information. Our web designers have hosted and designed website layout for over twenty years. We can assist with layout, SEO marketing, branding, and getting just the right look and feel you want in your website!

- We can assist in transferring your website and domain to our hosting service.
- We provide up to 500 email addresses in each of our current pricing tiers.
- Want a new Domain? We got you covered! Want a sub-domain? No problem!
- No hosting advertisements or branding on your website.
- Update your content at the frequency you desire. We can update or you can.
- Want a new design or layout? Our designers are ready to quote your next project!

Pricing:

- Tier 1 Web Hosting: Includes 30 min. content updates each month: \$50.00/mo.
- Tier 2 Web Hosting: Includes 60 min. content updates each month: \$75.00/mo.
- Tier 3 Web Hosting: Includes 120 min. content updates each month: \$100.00/mo.
- Custom plans are available for clients requiring more active content updates or direct access to content.
- Content updates exceeding tier plans are billed at our standard rates.
- Design and layout changes are quoted to your specifications.

Our Web Direct option provides updates to your web content directly from the Master System for inventory updates and customer log-in content. You control what is updated.

- Inventory lists, pictures, description, quantity, and pricing.
- Secure log-in for your customers to check their open jobs, history jobs, job status, A/R list for open and paid, and you can now offer payment options directly on your site!

The update frequency is up to you: update weekly, nightly, or hourly. Web Direct is offered on our hosting platform or can be integrated with other hosting services. Web Direct integration is quoted based on the specific information you want updated; keep it simple or open more options for your customers to interact with you!
